

## Standard Curing Box for Concrete Model SHBY-90B

The box can carry out standard curing for concrete sample. Stainless steel plate from developed countries is use for the internal bladder. The spray employs ultrasonic humidification, high-power compressor, double-layer vacuum glass door and intellectual instrument with digital display of temperature and humidity, equipped with micro-printer, which is an idea unit for curing of concrete samples in testing laboratory and quality inspection center

---

### Technical Parameter:

1. Accuracy of temperature control  $\pm 0.1^{\circ}\text{C}$
2. Temperature difference in the box:  $\leq \pm 2^{\circ}\text{C}$
3. Humidity control  $\geq 95\%$  (Adjustable )
4. Operating voltage:  $220\text{V} \pm 10\%$
5. Heating power: 600W
6. Power of compressor: 1 SBW
7. Internal dimensions: 1200x560x1400mm
8. Volume for concrete samples: 36 Groups
