

Multimeasure - Leak Detection

UV-TORCHLIGHT 5F

The lightweight UV-Torchlight 5F with a robust housing made of a high-strength aluminium alloy is a versatile UV LED torch for leisure and professional applications since its UV emitting range of 380 to 385 nanometres is perfectly suited for many common fields of application.

UV lamps	Wavelength	UV-A, Peak up to 380 ~ 385 nm
	Lamp lifetime	Approx. 2,000 h
	Radiation intensity (at a distance of 38 cm) – radiation cone M, Ø 100 mm	1,960 µW/cm²
	Start-up time	< 1 s
	Lamp type	9 x LED, approx. 1 W
Generator unit	UV light	
Device control	Push buttons	
Housing design	6061-T6 aluminium	
Type of protection	IP65	
Operating time	> 2 h	
Power supply	Internal (battery) Internal (battery) 3 x 1.5 V, AAA	
Dimensions	Length (packaging excluded) [mm]	98.5
	Width (packaging excluded) [mm]	29
	Height (packaging excluded) [mm]	29
	Diameter (packaging excluded) [mm]	29
	Min. diameter (packaging excluded) [mm]	27
	Max. diameter (packaging excluded) [mm]	29
Weight	(packaging excluded) [kg]	0.079
