

# Digital indoor - outdoor thermometer with alarm

**PROMAT**

indoor outdoor thermometer is perfect for home/office and weather temperature measurement

ETI-810080

simultaneously displays outdoor & indoor temperature

programmable high / low temperature alarm

detachable outdoor probe supplied

Technical Data	ETI-810080
Range - in	-19.9 to 69.9°C
Range - out	-49.9 to 69.9°C
Resolution	0.1°C/°F (switchable)
Accuracy	±1°C ± 1 digit
Battery	1.5 volt AAA
Battery life	5000 hours thermistor
Sensor type	LCD digital
Display	20 x 65 x 97mm
Dimensions	thermistor
Weight	100 grams
Case material	ABS plastic
Guarantee	one year
Measurement scale	Celsius/Fahrenheit

The ETI-810080 incorporates two temperature sensors, a small, water resistant, detachable remote probe with a three metre PVC lead for outside temperatures and an internal thermistor sensor to measure for indoor temperatures.

The ETI-810080 features a programmable high/low alarm to give you an audible warning if the temperature falls outside the ones you set (remote probe only).

The ETI-810080 features an easy-to-read dual LCD display and max/min function to view the highest and lowest temperatures. Indoor temperature is measured over the range of -19.9 to 69.9°C while outdoor is -49.9 to 69.9°C. Both have a resolution of 0.1 °C and an accuracy of ±1 °C.

The max/min thermometer is housed in an ABS case which incorporates a foldaway stand and a keyhole slot for hanging on the wall.
