

BT20 INSERTION THERMOMETER

Quick temperature control – seductively easy

The long, slim, stainless steel measuring tip and the wide measuring range from -40 °C to +250 °C make this practical insertion thermometer ideal for a variety of measuring applications in gastronomy, trade, craft and industry, as well as in laboratories and for hobby enthusiasts.

A few practical benefits:

- ***Quick and easy core temperature measurements***
 - ***Wide measuring range***
 - ***Maximum or minimum value and hold function***
 - ***Simple handling and cleaning***
 - ***Quick response time***
 - ***Soft-touch rubber protective cover***
 - ***Stainless steel measuring tip***
 - ***Optimum price-performance-ratio***
-

TECHNICAL DATA

General information

Article number 3.510.205.001

Temperature [°C]

Min. measuring range [°C] -40

Min. measuring range [°F] -40

Max. measuring range [°C] 250

Max. measuring range [°F] 482

Accuracy [%] 1.5

Accuracy ± [°C] 2

Accuracy ± [°F] 3.8

Resolution [°C] 0.1

Resolution [°F] 0.1

Response time [s] 2

Display
