

Thermapen Air

Thermapen® Air - thermometer with air temperature probe

ETI-231214

Ideal for HVAC applications

one-handed operation

auto-power on/off facility

foldaway stainless steel probe

lightweight, compact & easy to use

The ETI-231214 with fast response air probe is an invaluable tool in establishing the correct air temperature quickly in HVAC, laboratory applications and other temperature sensitive working areas.

The ETI-231214 incorporates a large digital display with a precise read-out over the range of -49.9 to 299.9 °C. If required, via a switch in the battery compartment. The thermometer will power off automatically after ten minutes, maximising battery life.

The thermometer probe, conveniently folds back through 180 degrees into the side of the instrument when not in use. The casing is washable and includes 'Biomaster' additive that reduces bacteria growth and the ergonomic rubber seal minimises the risk of the ingress of water, dust or food.
